
EDITOR'S CORRECTION

Due to editing problems, three figures in the paper entitled “The effect of consensus building processes on regional collaboration” by Matthias Buchecker and Marcel Hunziker, included in Vol7, No1: 72-83 were corrupted. These figures should be reformed and rectified in the present issue. Subsequently, Figure 2 (page 77), Figure 3 (page 78) and Figure 6 (page 80) should be replaced with the following ones:

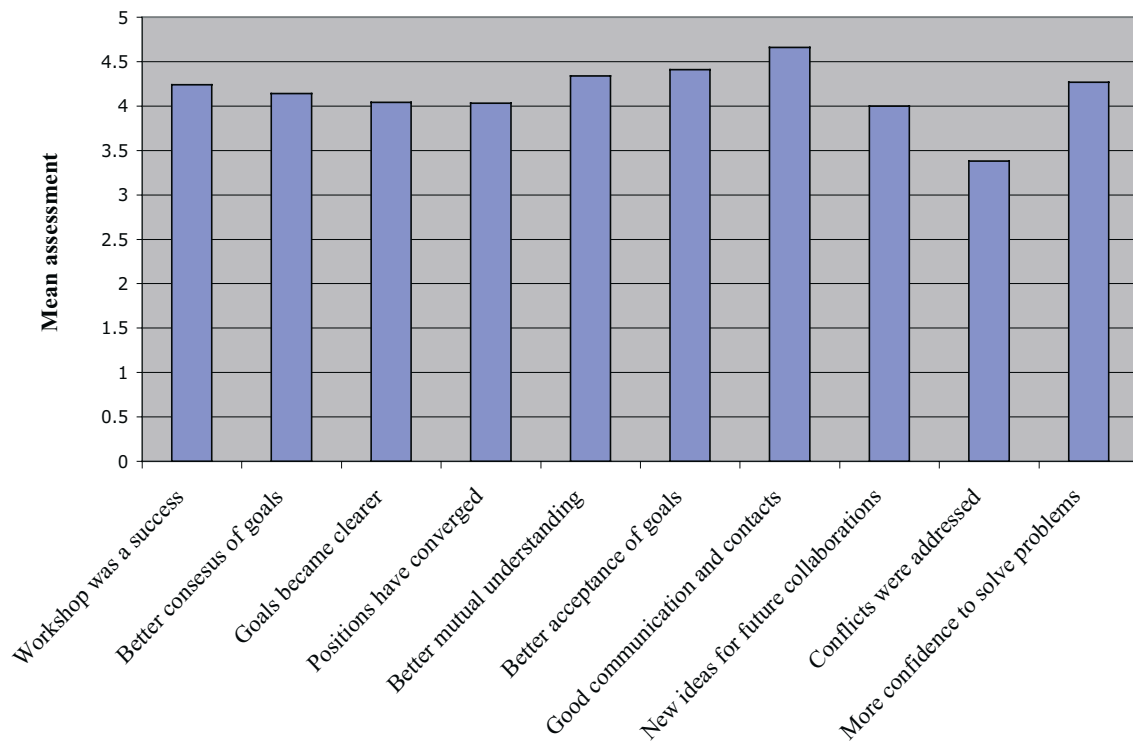

Fig. 2: Participants' ex-post assessment of the workshop's effect in the Albula valley

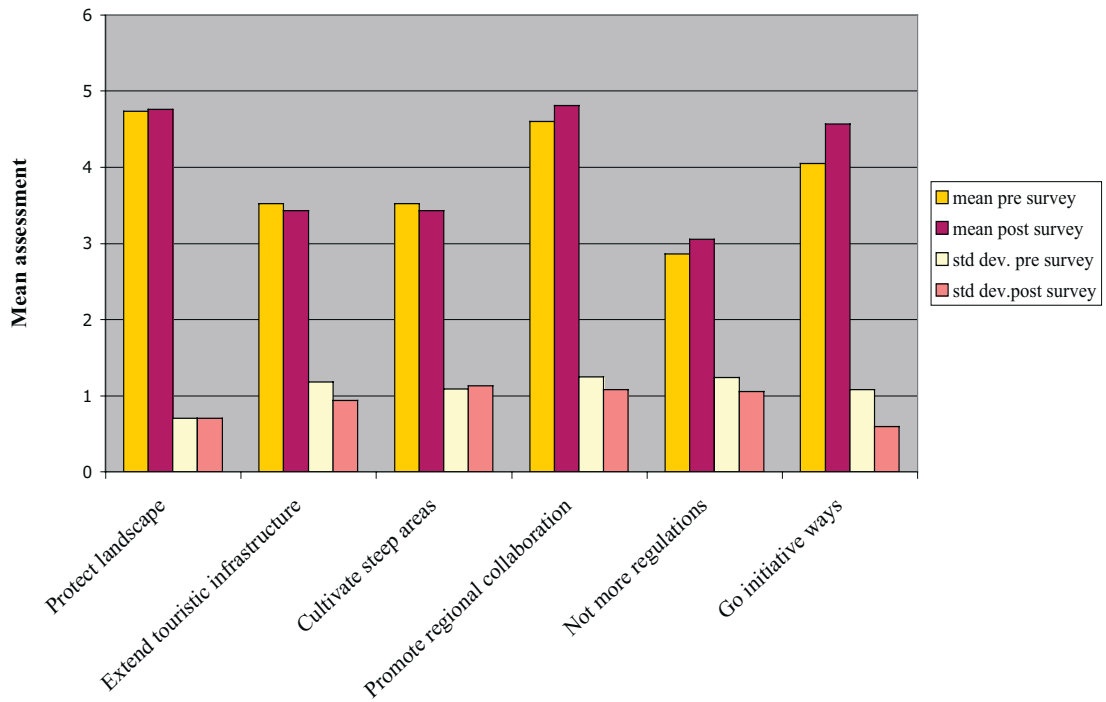

Fig. 3: Participants' attitudes towards developmental principles before and after the process

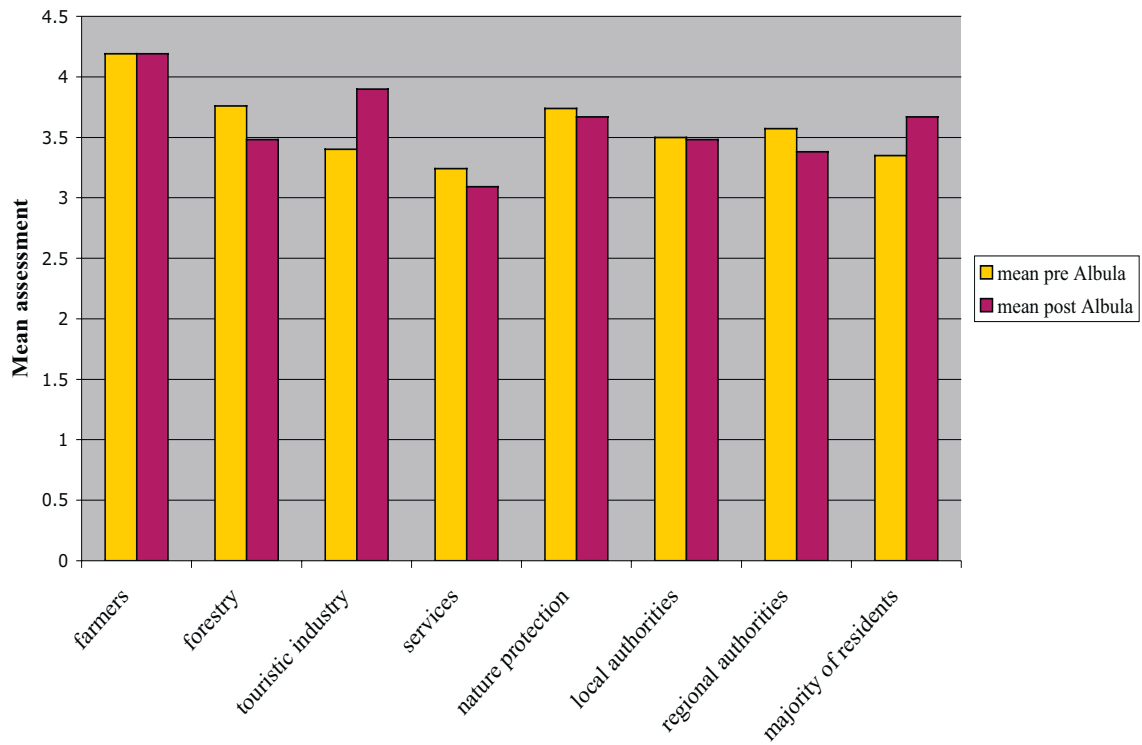

Fig. 6: Participants' assessment of their agreement with the attitudes of other social groups in the Albula valley before and after the process
